

Feta, Cucumber and Cherry tomato KORKI. I call them "Greek Salad Korki", because really-except the red onion, they are not missing anything else. Sooo good. Healthy too!

Ingredients:

Cherry tomatoes,

Persian cucumbers (sliced),

Feta cheese (cubed),

Pepper to taste,

Toothpicks,

Olive oil (Few tbsp.)

Directions:

Skewer a tomato, then piece of cubed feta and slice of cucumber.

Stick the tooth pick into, but not all the way through the cucumber.

Stand KORKI on a serving plate with a side of olive oil (OR You may sprinkle them with olive oil, instead of putting the oil on a side).

Serve cold and enjoy (:
